SCHOOL REPORT

February 15, 1905.

In submitting our report for the year we would say that there has been no change in teachers in schools Nos. 2, 3 and 4 from the previous year with the exception of a substitute for a few weeks in No. 2, on account of the illness of Miss Whittier, and the excellent work has been carried forward from where it was left last February.

The other teachers came to us as strangers and their work is best known to those who have been in close contact with the schools.

School No. 5 is still in session with a substitute, the school having had a recess on account of illness.

We would urge again the same suggestion which have been given so many times before; that the parents should visit the schools often, so they may know just how their children are progressing and thus giving encouragement to both the teachers and pupils.

The whooping cough and measles have caused a bad showing in the daily attendance in some of the schools but we are pleased to have a few names on the Roll of Honor. The following scholars deserve special mention for not having been absent a single half-day during the school year:- Clifford A. Sawyer. C. Ruth Noyes. Maud M. Smith. Fred A. Smith.

We think the change which has been made in the text books during the year has been an advantage to the schools as a whole and we will say that we have some school supplies on hand for another year, as by purchasing a large quantity, a better price was obtained on the goods.

With this report is given the names of the pupils the School Board has paid tuition for at the Academy.

Good teachers are, and always will be in demand and their merits cannot fail to be known to the general public. We think the age at which our pupils enter from the Primary Schools to a Classical Course is the best recommendation our teachers can have.
